Dear colleagues and friends

It is a great honor to cordially invite you to the **"İstanbul Microsurgery Course"**. We are more than happy to bring to Istanbul the legendary "Microsurgery Course Zurich", which had been a milestone in more than 3000 neurosurgeon's career including mine.

It was my lifetime desire to organize such a course to bring together the best teacher of microsurgery **"Rosmarie Frick"** and the founder of microneurosurgery **"Professor M. Gazi Yaşargil"**. Needless to say that this year the participants will witness historical moments.

This year the number of participants will be limited to 15 and each of them will be able to work on a rat at their own lab station equipped with necessary surgical tools and microscope. With 3 full days of training all participants will be able to familiarize themselves with the micro instruments and learn the key points of micro suturing, vascular anastomosis and micro dissection.

We are looking forward to welcoming you from all over the world for our course.

Uğur Türe

PROGRAM

Friday, June 22, 2012

- * Demonstration of end-to-end anastomosis
- * Practice on polyurethane vessels using 6-0 and 10-0 sutures.

Saturday, June 23, 2012

- * Practice of end-to-end anastomosis of the carotid and femoral arteries of a rat.

Sunday, June 24, 2012

- * Practice of end-to-side anastomosis of the carotid or femoral arteries of a rat.
- * Preparation of the aorta and vena cava of a rat.
